When You ARE ILL

It does not take a good doctor to tell that most anybody could do as much. To tell what makes you ill sometimes calls for the utmost skill. Anyone, by a few simple tests, can tell that your eyes are defective—but to know the exact cause and fit the right glasses calls for more than ordinary skill.

We make the fitting of glasses a special study and are in business to bring wrong eyes and right glasses together. May we help you?

Section Director.

OF LOCAL INTEREST

SAN FRANCISCO PASSENGER—

Among the passengers who went out on last night's Phoenix was Vernon Jobe, who went to San Francisco on a business trip.

RELATIVED VACATION—Miss Adah

M. Cale, the competent stenographer of the Water Users' Association, is enjoying a belated vacation, which will extend over a period of two weeks.

GOING TO CHINA—Lum Hing and

Chook Yon, two well known Phoenix Chinamen, left last night on the "Phoenix" for San Francisco. They are on their way to China for a visit with friends and relatives in that country. Both expect to return in a few months.

APPEAL FROM PROBATE COURT—

Suit was filed in the district court yesterday in behalf of Willis G. Wentzler, being an appeal from two orders of the probate court in the matter of the estate of Lillian May Wentzler versus Willis G. Wentzler. The appellant makes affidavit that he is a devisee under a will of Lillian May Wentzler dated April 21, 1910, which the court refused to probate and that the court did intend, admit a will dated April 2, 1910, to his material injury.

MINING MAN GOES EAST—Dr.

N. H. Morrison, president of the London Gila Mining & Power Company, which owns some valuable property just above Winkelman, left last night for his home in Newark, New Jersey, where the head office of his company is located. Dr. Morrison has been in Phoenix and Winkelman several months, during which time some gratifying discoveries have been made on London Gila ground. He will therefore be able to make a cheering report to the eastern stockholders. It is his intention to return to Phoenix in a short time.

TENTATIVE PLANS RECEIVED—

Postmaster McClintock is in receipt of the first or tentative plans for the new federal building, drawn in Washington and sent on for inspection and suggestion before the permanent plans are undertaken. The postmaster is not exactly pleased with the arrangement of the office and some of the other institution's that will be housed in the building are also inclined to think they could draw plans that would suit them better. It is probable that most of the offices concerned will send along suggested changes after which it can be expected the government will make another try. While the government will have its own way in the end it is reasonable to suppose that it will try to please its patrons who are to use the offices, as far as it can without interfering with its general architectural design or increasing the cost.

GOES TO COAST—F. R. Dyar was a passenger for San Diego on the "Phoenix" last evening.

GOES TO SAN FRANCISCO—W. F. Frazee left last night, over the Santa Fe, for San Francisco.

TO LOS ANGELES—Maggie D. Bates and T. M. Earnhardt were passengers on last night's "Phoenix" for Los Angeles.

LEAVE FOR COLORADO—W. F. and Thomas J. Buckley left last evening on the California Limited for Colorado Springs.

TO EASTERN HOME—George Hillworth left last night over the Santa Fe California Limited, for his old home in Celina, Ohio.

ENGINEER LONG HERE—Chief Engineer L. H. Long of the Harriman lines, with headquarters in Tucson, was in Phoenix yesterday on business.

GOES TO LOS ANGELES—P. A. Tharaldson of the Hub left last evening over the Southern Pacific for Los Angeles, expecting to be absent several days on business connected with the letting of a contract for the construction of the Hotel Adams.

TWENTY-FOUR ARRESTS—From Saturday night until yesterday afternoon, the police made twenty-four arrests, the majority of the cases being common drunks. There was a complete line-up before Police Judge Thomas yesterday afternoon.

GOING TO AFRICA—There will be a debate tonight at Tanager chapel, M. E. church on the subject, Resolved, "That the Afro-American Should Emigrate to Africa." John Beck, assisted by Prof. Williams will look after the affirmative, while Mr. T. Smith with one of the city's best orators will support the negative. There will be good music. All questions on Africa will be answered by the president.

GIRL PAROLED—Viola Hazel Pray has been paroled from the territorial industrial school at Benson, by Governor Sloan. The girl was committed from Cochise county August 4 of last year for the crime of "dependency and neglect." Her record at the school has been excellent and friends succeeded in convincing the governor that her personal interests would be better served by her parole than by her detention.

MAY LOCATE HERE—Mr. and Mrs. William Minderman are recent arrivals in Phoenix from Minneapolis, Minnesota. They have rented a little ranch situated near Alhambra, from the Valley Realty company, and will spend the winter here at least. It is possible that if they like the country as well after one winter here as they do on first acquaintance, they will locate here permanently. Mr. Minderman is much impressed with the wonderful possibilities of the Salt River valley.

WURST-LUKE—This morning at 8 o'clock the marriage of Mr. Max B. Wurst, son of Mr. and Mrs. E. Wurst, North Fifth street and Miss Eva Luke, daughter of Mr. and Mrs. F. K. Luke of East Washington street will take place at St. Mary's Catholic church. There will be a solemn high mass, at which Rev. Louis Wurst, the uncle of the groom, will officiate and also perform the marriage ceremony. Rev. Louis Wurst is pastor of the Catholic church at Tomak, Wisconsin, and came to this valley for the special purpose of officiating on this occasion.

EXTENDED TRIP—The movements of Rex W. Dunlap, the mining engineer, are enough to keep one newspaper reporter busy. Dunlap came back from a summer vacation and business trip only a few weeks ago and today he will leave again, traveling via the Santa Fe. He will go first to Kansas City and then on to New York, Boston, Philadelphia, Washington and other eastern points. It is possible that before he returns he will run over to Europe. He is taking the trip for business, not for pleasure, and he admits that he has a big mining deal on that may be closed by the time he returns.

STORED WATER SUPPLY

The elevation of water above the Roosevelt dam yesterday was 64.39 feet, indicating a stored supply of 25153 acre feet. The normal flow of the Salt and Verde rivers at Granite Reef was 14122 miners' inches and of the Salt at the joint head, 2266 inches. On the north side 11969 inches of water were used today for irrigation purposes, while 9299 inches were used on the south side. Following is the schedule of water distribution for today: Arizona, eight hours to quarter section; Grand Appropriators, twelve hours; Maricopa, dry; Salt, twelve hours.

SURVEYS APPROVED—

Mineral Survey No. 2675, Planet, Planet No. 2, Planet No. 3, Planet No. 4, Iron Hill No. 2, Copper Hill, Copper Hill No. 2, Ella Belle, Ella Belle No. 2, Ah-Huk, Mark Hann, La Mexicana, Comet, Byron, Sentinel, Palmetto, Planet No. 5, Ashley, Orange, Wisconsin, Kimball, Boston, Chompton, Odora, Oddolotta, Nickerson, Barton, Blue Bird, Otis, Opal, Brookville, New York, Mesa, Smelter Gulch, Bill Williams, Partridge, Bunker Hill and McCann Lode Mining Claims, situated in the Harcuvar Mining District, Yuma County, Arizona, and claimed by the Planet Copper Mining company, has been approved by the surveyor-general.

IT IS NOT SO—It is not true that Will Collier, master mechanic of the Tribolet meat market was arrested yesterday afternoon, even if people did see him riding on the tail end of the patrol wagon with an officer holding to him. The officer had merely picked up a drunk back of Tribolet's and Collier, thinking to steal a ride for half a block in the direction he wanted to go, boarded the wagon. The officer insisted that if the wagon was good enough for him to ride in down the alley it was good enough for him to ride in across Washington street where his friends could see, so he hung to him until the station was reached. The incident would have attracted no attention, only that Collier was attired in his long white robes of office and observers felt sure some butcher had gone wrong.

A CONUNDRUM

Why do people who do not eat pork as meat continue to use it in the form of lard? Lard is just as indigestible as pork. In a recent article on cooking fats, Dr. Page Emery, the eminent specialist, writes as follows:

"The healthful and economical solution of the cooking fat problem is the use of Cottolene. Cottolene is purely a vegetable product, is easily assimilated, and aids digestion. Dietetic experiments have shown conclusively that when a vegetable oil is used in cooking in preference to animal fat, it is more easily assimilated and yields far more nourishment to the body."

Cottolene is not only wholesome; it is economical as well, one-third less being required.

HERE FROM SALOME—Mrs. C. C. Hall of Salome arrived in Phoenix yesterday and is registered at the Ford hotel.

ON "THE PHOENIX"—Ray Doyle was a passenger last evening on "The Phoenix" of the Santa Fe, bound for Los Angeles, where he is called on business.

TO VALPARIZO—Mr. and Mrs. Tootbacher left last evening on the Southern Pacific for Valparizo, Ind., where they will be the guests of friends for several weeks.

BACK FROM TRIP—Charles K. Pishon of this city, who is traveling salesman for a large Los Angeles dry goods house, arrived home yesterday for a brief stay.

RAY MERCHANT HERE—S. C. Rundle, a well known merchant of Ray, is in the city on business, having arrived here yesterday. He is registered at the Ford hotel.

HERE FROM ILLINOIS—C. O. Kistner of Granite City, Illinois, has arrived in Phoenix accompanied by his mother. He was a caller yesterday at the board of trade and stated that he was highly pleased with what he had seen of the valley. Mr. Kistner is looking for a place to locate and has about decided to set his stakes in the Salt river valley.

MAY BRING COLONY—Representing a number of homeseekers in California and the east, L. C. Werder arrived in Phoenix yesterday and will spend some time looking over the valley. He called at the board of trade yesterday and stated that if the valley suited him he would recommend it to all his friends and that a big colony would arrive in a few months.

RAILWAY COMMISSION—The regular tri-annual meeting of the Arizona railway commission was held yesterday. Chairman W. P. McNair of Douglas and Secretary E. S. DeFass of Stoneham of Globe, the third member, did not attend. Some important matters were taken under consideration, but nothing regarding the proceedings was made public.

DR. GOODFELLOW IMPROVING—Word has been received at the local offices of the Southern Pacific that Dr. George Goodfellow, surgeon for that road, has been removed from the Los Angeles hospital in which he has spent several months, to the Southern Pacific hospital in San Francisco. He has had several relapses and several times it was thought he would not recover. The San Francisco physicians state that there is now every reason to expect his speedy recovery.

SQUASHES AND PUMPKINS—

Dwight B. Heard, who is now in Los Angeles, has written Secretary Harry Welch of the board of trade suggesting that dates, squashes and pumpkins be sent over to the branch in that city. Some dates have been sent already, but more are needed. The Southern California counties are exhibiting some monster pumpkins and squashes and Mr. Heard thinks it would be a good thing for Arizona to show what she can do in that line. Any good specimens of these vegetables will be welcomed at the board office.

DEATH OF MRS. J. H. CAMPBELL—

Word was received in Phoenix yesterday by friends of Judge John H. Campbell, announcing the death of Mrs. Campbell yesterday morning in Tucson. Mrs. Campbell, it is understood, has been an invalid for a long time and her death was not entirely unexpected. A sister of Judge Campbell, Mrs. E. J. Fox, who lives here, was notified and left for Tucson on last night's train. Beside the bereaved husband, Mrs. Campbell is survived by three children; none of them being small and one son being a student in the University of Arizona.

WAS PSEUDO POLICEMAN—

Charles Cross, the dwarf who has lately become a familiar figure upon the streets and who has been acting as "sandwich man" for the Majestic, appeared yesterday in the garb of a policeman. At least that is what he supposed to represent. He relieved and then assisted the traffic squad in directing teamsters in the way they should go, and otherwise attracted the attention of the crowds on the street. While it was not an extremely edifying spectacle, it is evidently not the purpose intended and the Majestic probably secured the advertisement aimed at.

KODAK

With the Bother Left Out

Whether the amateur cares only for the pictures, whether he wishes to make them as well as take them, it is the Kodak Way that leads to success. Simplicity of method combined with perfection in material and apparatus—in them is the witchery of Kodakery.
